

Suspended Membership

The Creation of Pending Membership Category for members waiting to join.

Following the constant recent review of our membership numbers and associated tee time availability, we have taken the difficult decision to currently suspended membership for a further month, with the next review now scheduled for 18th August 2021.

We have decided to continue with this temporary suspension since tee time utilisation rates are continuing to show unparalleled high rates, and although we are seeing members from various categories not renewing their membership at our monthly renewals, a closer investigation of their playing records shows that these members were playing little golf, so their drop-out is not freeing up those valuable tee times to help members in obtaining a tee time.

Furthermore, we are also mindful that the evenings will soon start to draw in, reducing playing opportunities even further, so we need to act to take all possible precautions to ensure tee times are available and members receive true value for their appropriate membership fees.

We trust that members in our new pending file (members waiting list) and those contemplating joining BGC understand that it wouldn't be fair to you or our current members to keep increasing numbers and for us not to be responsive to the potential for restricted tee time availability.

Players wishing to join BGC at this time can complete the required application [form](#) as required, which will be processed as normal, with a membership number then being issued. These members will be offered a membership place as soon as available in order of joining the **pending category**.

No fees are required until a membership place is offered.
