

Membership update 6th April 2022.

We have once again witnessed a considerable increase in new membership applications thorough the early part of 2022, and as a result have no option but to temporarily suspend taking in any new members, as from the above date.

This will be reviewed at the end of May when we can re-evaluate the response from the existing Members renewing their membership through May, this will hopefully have given us a clearer indication of any potential vacancies and in which categories.

Please continue to make new applications in the usual process, which will get allocated and reviewed into our Pending File. New applicants are not required to make any payments at this stage and under no obligation to continue the membership process.

If you have any queries or require any further information, please use the contact forms on our website or email enquiries@bromsgrovegolfcentre.com
